## 2. PRECISION REFLECTORS

- DIFF 1 ● Great for redirecting light or creating powerful, natural-looking sunlight.
- DIFF 2 ● Punchy, diffused key light with no spill.
- DIFF 3 ● Very diffused, soft light with some punch.
- DIFF 4 ○ Maximum diffusion for a very soft key light or fill. Its extra diffusion layer mimics subsurface scattering, like snow.

Only 3% light loss, 100% color rendering.

## 3. GOOD TO KNOW

**T-WHEEL** : Intuitive, precise control in limited spaces. Our mount gives you the feeling of holding a paintbrush, putting creative control back in your hands. Seamlessly mounts to industry-standard 16mm baby pins.

**SMALL THINGS THAT MATTER BOOKLET**  
The guidebook for those passionate about reflected light—showing you how to create natural light quickly and easily in small spaces.
